Lankin INVESTMENTS

DISCLAIMER: While the information presented in this investor document has been researched and thought to be reasonable, in general, real estate investment is highly speculative. Real estate values can go up, but they can also go down, and thus LANKIN INVESTMENTS, PARTNERS AND/OR THEIR AGENTS CANNOT AND DO NOT GUARANTEE ANY RATE OF RETURN OR INVESTED AMOUNT OR INVESTMENT TIMELINE.

Past performance may not be indicative of future returns. Targeted returns are not guaranteed and are subject to performance assumptions and risk factors, including real estate and financing risks that are summarized in the Offering Memorandum, which may cause actual results to vary materially. Any forward-looking statements herein are subject to the assumptions and risk factors stated in the Offering Memorandum. Investors are required to conduct their own investigations, analysis, due diligence, draw their own conclusions, and make their own decisions. Any areas concerning taxes, or specific legal or technical situations should be referred to lawyers, accountants, consultants, realtors, or other professionals licensed, qualified or authorized to render such advice. This is not a solicitation for investments. Investments are sold only to investors who qualify under applicable prospectus exemptions. Please read the disclosure and/or due diligence documents carefully. This offering is void where prohibited. Not every potentially interested party is eligible to invest. Minimum investment amounts and hold periods apply.

[1]Targeted total return includes anticipated net asset value appreciation and cash distributions and is presented net of all management and profit-sharing fees, and before investor tax liabilities. Refer to term sheet. The return is calculated as a time-weighted return. [2]Targeted annualized cash distribution 6% of NAV. [3]Reflects tax deferral, not exemption; outcomes depend on investor-specific circumstances and may trigger future liabilities on disposition. Consult a qualified tax advisor. [4]Distributions characterized as a return of capital may not be sustainable. Such distributions are not taxable in the year of receipt but will reduce the investor's adjusted cost base, resulting in a larger capital gain or smaller capital loss upon the eventual disposition of units. Investors should consult a tax professional regarding future tax liabilities.
